MY PERSONAL EXPERIENCE WITH ART

This is me as a kid and my family on a field trip, visiting the Rizal Shrine in Calamba, Laguna. It was an unbelievable experience because I had the opportunity to visit where Rizal was born. This place is rich in history and culture since it is the birthplace of our national hero, Jose Rizal. The tour guide toured us in every section of the house, from the first floor, where most of Rizal's works were displayed, like the popular books of Rizal, Noli Me Tangere and El Filibusterismo, Arts, Statues like in the picture above, etc. And in the Second Floor, where furniture like tables, chairs, beds, etc. was preserved and maintained. This visit taught me that how artworks can tell powerful stories about history and made me appreciate how much it can teach us.

The function present in the picture is Cultural, Cultural because the Statue of Rizal honors his sacrifices by symbolizing his fight for the Philippine Independence and Justice. It commemorates his bravery and dedication reminding people of his contributions and the values he stood for.
